

# Actively Waiting

Family and Friends-

Waiting is a life theme that doesn't go away. But we have to be careful not to get so caught up in waiting for what's next that we forget to live for what's now. Although Ryan and I are looking forward to Australia, we are also trying to make the most of our life in Camarillo.

Ryan works two jobs and leads a Bible study that is going through the Bible chronologically. We're currently in Revelation and will have the final study on July 10<sup>th</sup>, almost 5 years to the day from the study's beginning. I'm proud of my husband for his commitment and dedication to teaching and learning the Bible.

Ryan taking membership vows at CPC on Sunday June 14th.

**Ryan's Email:**

[LPturtable@yahoo.com](mailto:LPturtable@yahoo.com)

**Joy's Email:**

[joyellenreiter@gmail.com](mailto:joyellenreiter@gmail.com)

**Address:** Email us for our street address.

I've been teaching ESL online to students in China and at an adult school in the area. I have also started the Adult education credential process. We don't yet know if we will be here long enough to complete the process but Ryan and I both think that it is good to take advantage of the opportunity because even the process allows for learning.

We see God preparing us for Australia, in our daily lives and through the process with MTW (Mission to the World). Our last newsletter in February included a list of 10 things that need to happen before we can move to Australia. We've successfully completed the first two steps. Ryan is now a member of CPC and we completed our applications and first interviews with MTW.

The next step is REV (Readiness Evaluation). Ryan and I bought tickets to Atlanta and will be there the last week of July. This intense week will determine how ready we are for Australia. Please pray for us. Pray that this week would be another confirming step in our journey towards Australia.

Actively Waiting with Him-

*Ryan and Joy Reiter*
