

Road to Australia

April 2016

Travels, Milestones and What's Next

Hello Family and Friends-

So much of life happens in the twists and turns, and our road to Australia is no different. Ryan and I have been traveling, sharing our vision and raising financial support full-time for about 2 months. We are seeing God at work as we are each being directed, sharpened and refined in this process.

If you haven't heard, we have raised over 56% of our monthly support. This is a huge milestone for us, not only because it gets us that much closer to Australia, but also because we now can attend July training in Brussels, Belgium. Our organization is doing their due diligence to make sure we aren't taking unnecessary risks but what a great opportunity to minister in a city that will still be healing from the recent attacks. We look forward to this opportunity to serve while being trained.

This month we are in California before our big cross country road trip. We're excited for this time of connecting with people, sharing about Australia and seeing more of the beautiful USA. We will drive through Colorado and Wisconsin, as far east as North Carolina and as far south as Mississippi before returning back to California via Texas.

The road to Australia isn't smooth or easy but it's worth it. God has already begun our ministry in so many ways.

Thank you for praying us to Australia!

Ryan and Joy

Please Pray For...

Our World:

- for those hurting, displaced and afraid
- for those who have no hope

Ryan and Joy:

- travel safety
- wisdom with scheduling
- the visa process, may God open the right doors for us
- support raising, that the right people will give at the right time

Our Next Goal: 60% by April 30th

\$431 a month is still needed to reach that goal. Can you help us by giving?

Give to our ministry:
